ABSTRACT

This 1993 report from the Alabama Public Library Service includes directories of public libraries, single-county public library systems, multi-county public library systems, and multi-type library systems in the state. Cross references are included to provide access to the libraries by library name and librarians. Statistics on individual libraries for fiscal year 1993 provide data on outlets and staff; print and nonprint resources; income; income percentages; salaries and materials expenditures; other expenditures; circulation; and reference services and programs. Library rankings by size of staff, total volumes held, circulation, total income, and expenditures (total, local per capita, and total per capita) are also presented. (JLB)
